## **City of Zeeland Announces Upcoming Meetings Related to Proposed Mead Johnson Project**

The City of Zeeland has received an official rezoning application from Mead Johnson for properties located at 605 and 633 E. Main Avenue. In an effort to ensure the community is fully informed and has an opportunity to engage, the City is sharing details of two upcoming meetings related to the proposed project:

**Thursday, June 5 at 5:45 PM**

**Planning Commission Conceptual Presentation**

*Howard Miller Community Center, 14 S. Church Street, lower level*

Mead Johnson will present a conceptual overview of their proposed development project to the Planning Commission. This meeting is an opportunity for the community to see the broader vision, but please note:

- This is a conceptual presentation only.
- No official decisions will be made.
- A public comment section is present at the top of every agenda, however, there will not be additional public comment opportunities following this presentation.

**Thursday, June 12 at 6:00 PM**

**Public Hearing on Rezoning Request**

*Howard Miller Community Center, 14 S. Church Street, lower level*

A public hearing will be held regarding Mead Johnson's rezoning application for the properties at 605 and 633 E. Main. Public comment is welcome and encouraged during this meeting.

While the June 5 presentation is not required by standard procedure, we believe it is important to provide additional opportunities for community awareness and understanding. The City remains committed to transparent, open communication and balanced development that reflects the best interests of Zeeland.

We invite the community to attend and stay informed as we work together to shape Zeeland's future.
