The attached maps highlight the areas that are associated with Areas A and B and also the areas that fall within the MDOT Right-of-Way. Regarding the areas inside the Clean Water Plant, the contractor is responsible for mowing all the grass inside the fenced areas apart from the slopes of the retention pond.
2. A question was asked about the construction activities at the Clean Water Plant and their impact on the work. The work at the Clean Water Plant is expected to conclude by June 30<sup>th</sup> of 2026, but restoration may occur prior to this date. Contractor is to assume mowing the full area for the full growing season.
